### TRI-COUNTY QUILT GUILD SCHOOL INFORMATION SHEET STORYBOOK QUILTS PROJECT

This letter is to state that \_\_\_\_\_  
is representing the Tri-County Quilt Guild.

The Tri-County Quilt Guild has created a community outreach program in which our members will read to your students and educate them about the quilting process. As a typically American craft, we feel quilting deserves to be preserved as an important part of our culture. We believe that reading quilt-themed books to the children, showing a quilt especially made to compliment the book, and answering questions about the quilting process and our quilting heritage, will encourage an appreciation of, and perhaps spark an interest in quilting.

We have a selection of books and related quilts available for our volunteers to read in the schools. Teachers are also invited to present the books and quilts on their own, and are invited to check them out for a two week period. The books are suitable for grades K-6, and address a variety of themes, including personal loss, tolerance, death of a loved one, perseverance, moving, and appreciation of heritage.

Please see our web site: [www.tricountyquiltguild.org](http://www.tricountyquiltguild.org) for additional information.
